Proposal for a Committee on Racial and Ethnic Diversity

In response to suggestions from the membership, the Executive Committee proposes the formation of a Committee on Racial and Ethnic Diversity to facilitate within SPEP the representation of philosophers who are African-American, Latino/a, Asian-American, and Native American. The Committee will assess and report on the status of these constituencies in continental philosophy, identify discriminatory practices, and make recommendations to the Executive Committee concerning ways in which full and meaningful equality of opportunity can be provided to all.

The Committee will be composed of three members, each of whom will serve for three years. The first three members will be appointed by the Executive Committee and will have staggered terms of appointment, and suggestions from the membership for these appointments are encouraged. Henceforth, the Committee will put forth nominations for its own replacement positions. The Executive Committee will regularly invite suggestions from the membership for such nominations.

This proposal will be discussed and acted upon at the Business Meeting. More information about this proposal is contained in a brief paper entitled "Rationale for a Committee on Racial and Ethnic Diversity" that will be available at the Registration Desk.

Proposal for an Advocacy Committee

The Executive Committee proposes the formation of an Advocacy Committee

whose mission will be to explore and suggest ways in which SPEP can better represent its members to the wider philosophical community in matters that affect continental philosophy in North America. One of the tasks of the Advocacy Committee will be to identify ways in which SPEP can help promote a wider recognition of the importance and influence of continental philosophy in North America. The Committee will be asked to give its immediate attention to an appropriate response to the Leiter report and to its implications for the hiring of those who specialize in areas of continental philosophy. The

Committee will submit recommendations for action to the Executive Committee

for approval before implementation.

The proposed Advocacy Committee will be composed of four members.

There will be three elected members, each of whom will serve for three years. A fourth member will be appointed by the Executive Committee and will be a current member of the Executive Committee. The first Committee will be appointed by the Executive Committee and have staggered terms of appointment. Suggestions from the membership for these appointments are encouraged. Thereafter, the Advocacy Committee will nominate someone for each open elected position and other nominations will be accepted from the floor at the business meeting.

This proposal will be discussed and acted upon at the Business Meeting. More information about this proposal is contained in a brief paper entitled "Rationale for an Advocacy Committee" that will be available at the Registration Desk.
